Another feature of the platform over which there will be a bitter struggle will be the endorsement of the record of senator Guggenheim. The indica-tions point to a platform endorsing the Taft administration, steering wide of any mention of the tariff and approving the Roosevelt policies with a certain degree of neartiness.

State senator John B. Stephen, of Colorado City, an advocate of the initiative and referendum, who has a strong following: Rush L. Roosepeople do not appear to want him, Mr. Taft will be only too glad to submit to their decision.

It can be stated of Monday's meeting that while it may have been successful in its "scenic effect" and of moral advantage to the Roosevelt leaders in New York state, it was absolutely barren of results as to any better understanding between the president and Mr. Roosevelt as to national issues or

their personal relation. Something in the nature of a truce seems to have been arranged regarding the New York state situation. After | 6 that is over, other events will shape . & themselves. Col. The Ohio leaders were anxious, however, that the Taft administration and the congressional record should be made a part of the state campaign and took this means of bringing it about. .

More emphatically than ever the colonel reiterated his determination not to accept the nomination for governor of New York. This did not shake him. He repeated

that no one could force the nomination for governor upon him. Barnes Makes Comment

Y., Sept. 20.-William Barnes, jr., of Albany last night made this statement on the conference yesterday between president Taft and Col. Roosevelt:

"The mere fact that Mr. Roosevelt thought it necessary to go to New Haven to see the president indicates that he was looking for the support of the highest executive of the nation in the endeavor of himself and his friends to OOOOOOOOOOOOO commit the Republican party of New York to his policies. The question of the endorsement of the party for 1912 is highly important to Mr. Roosevelt. It is not to anybody else, No amount of circumlocution can be cloud the real issue, which is: "Shall the Republican party of New York take its stand in favor of a Bryanized Republican party, or shall it remain true to all its successful traditions?"

Freiburg's dance hall on 22nd street near Wabash, and the Woodlawn cafe, 63d street and Cottage Grove avenue, were the marks at which bombs were hurled. It is believed that the second bomb was intended for an alleged pool room adjoining the Woodlawn cafe. For three years the police have been in a turmoil over the mysterious ex-

It is believed that last night's bombs were thrown from an elevated rallroad platform.
